

WINDOWS® 10 MIGRATIONS MADE EASY

Fast, Secure, Zero-Touch Windows 10 Migrations

WINDOWS 10 IN EASY REACH

WWT and Tanium deliver a proven path to Windows 10 that lets you:

- Capitalize on the advanced security features of Windows 10 fast
- Meet Windows 10 migration mandates and fulfill NSA and USCYBERCOM directives
- Avoid system damage and any disruption to your network or mission-critical operations
- Automate migrations and upgrade thousands of devices within days

Ensure seamless migrations to Windows 10 with World Wide Technology (WWT) and Tanium™. Together, WWT and Tanium deliver the integrated tools and demonstrated expertise to:

OPTIMIZE SECURITY

Take advantage of the inherent advanced security features of Windows 10 without negatively impacting your Operating System (OS), endpoints or network. WWT and Tanium safely navigate the sophisticated BIOS and UEFI edits, hardware chipsets and system-level changes required to meet year-end mandates for Windows 10 migrations, so your agency can ensure compliance, fulfill NSA and U.S. Cyber Command directives, and capitalize on security enhancements now.

ENABLE ZERO-TOUCH MIGRATIONS

WWT and Tanium avoid the traditional methods of booting and imaging PCs typically involved in Windows migrations. With no reliance on USB or PXE, we provide an automated, proven zero-touch migration path to Windows 10, conducted remotely to avoid disruptions to your day-to-day operations or ongoing missions.

REDUCE RISK & COMPLEXITY

Combining Tanium's asset discovery, remediation and remote management tools with WWT's engineering expertise and professional services reduces risk and complexity, so you can safely and efficiently migrate and upgrade tens of thousands of devices within days or weeks rather than years. We work with you to tailor your migration and ensure that all information, custom settings, data and applications transfer seamlessly without undermining end-user productivity, security or network operations.

▶ OUR EXPERTS AT YOUR SERVICE

Put Tanium's industry-leading automated remediation and asset discovery tools and WWT's proven migration history to work for your organization. A renowned system integrator and Microsoft Gold Certified Partner, WWT has superior engineering capabilities and extensive experience overseeing Windows migrations for federal agencies and business enterprises across the globe. Tanium's unique approach to endpoint security and systems management coupled with WWT's proven ability to deliver advanced technology and leading-edge security solutions to the U.S. government and military agencies is already increasing productivity, security and costs savings for federal agencies including the U.S. Department of Defense and U.S. Air Force.

WINDOWS 10 IN-PLACE UPGRADE OVERVIEW

Tanium + WWT Automation Services

The Tanium + WWT partnership enables our customers to upgrade and manage endpoints, regardless of OS and location, in a zero and one-touch fashion, automated from start to finish.

▶ A PROVEN PROCESS

WWT and Tanium provide a proven zero-touch process to automate Windows 10 migrations, so you can easily upgrade and manage migrations for multiple endpoints regardless of location or the operating system currently in use.

- **Step 1:** Tanium fully assesses your current hardware and software to identify and determine the best path from your legacy operating system to Windows 10.
- **Step 2:** Tanium distributes required Windows 10 media and initiates the upgrade.
- **Step 3:** WWT automates upgrades to Windows 10 remotely and reinstalls the Tanium agent.
- **Step 4:** Tanium validates all hardware and software post-migration to ensure each endpoint meets all security and Windows 10 requirements.

▶ ENSURING SUCCESSFUL MIGRATIONS

WWT ensures successful Windows migrations with our Advanced Technology Center (ATC) and Integration Technology Center (ITC). The ATC is a collaborative ecosystem that provides hands-on access to cutting-edge data center, collaboration, networking and security products and expansive team of engineering resources. WWT's ITC provides a production-class environment for large-scale enterprise migrations. Together, WWT and Tanium deliver the following services to streamline migrations:

- **Project Scope and Deliverables Development**
- **Detailed Project Plans (PMP- and ITIL-based)**
- **End-to-End Migration and Configuration Services**
- **Testing OS Refreshes, In-Place Migrations and New Hardware Migrations**
- **Demonstrations and Proofs of Concept**
- **Application Inventory, Compatibility Assessment, Remediation and Packaging**
- **Supply Chain and Logistics**
- **Workshops and Training**

ABOUT WWT

Through its culture of innovation, World Wide Technology (WWT) inspires, builds and delivers business results, from idea to outcome.

Our customers have hands-on access to cutting-edge big data, cloud, collaboration, compute, mobility, networking, security, software and storage products in our Advanced Technology Center; technical expertise from our expansive team of engineering resources; and accelerated global product delivery, powered by a sophisticated supply chain management infrastructure.

By working with a financially strong, privately held systems integrator with more than \$7B in annual revenue that ranks among the top tier of partners with Cisco, Hewlett Packard Enterprise, HP, EMC, NetApp, VMware, VCE and F5, our customers realize the benefits of saving time and money while significantly minimizing risk.
